

Money – adding prices and totalling

MODULE 6 · TIME AND MONEY MEASURES

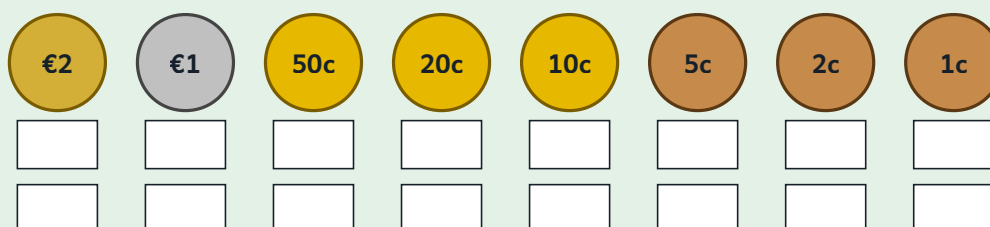

HOW TO ANSWER TODAY

- **Make change.** Change = what you paid – what it cost.

Paid €10, cost €6.75 → €10 – €6.75 = €3.25

TRY IT ON THE LINE

Use the coin mat to make and total the amounts in the lesson.

1. Make each amount with the fewest coins you can.
2. Total a small basket of prices.
3. Work out the change from a round amount.

PRACTICE

1

Cara's mam spends €89.34 at the vegetable stall and €59.76 at the bakery stall at the Saturday farmers' market in Cork. How much does she spend altogether?

2

Aoife's mam orders a birthday cake costing €76.28 and a tray of cupcakes costing €75.53 from the bakery beside the corner shop. How much does she spend altogether?

CHALLENGE

1

4th class are running a Christmas hamper raffle. On Monday they sell €38.64 worth of tickets and on Tuesday they sell €38.26 worth. How much have they raised over the two days?

2

Oisín stops at the corner shop on the way home from school and buys a comic and a snack costing €17.65 in total. He hands over a €20.00 note at the till. How much change does he get back?
