

Lesson 1

# STEM All Around Us: The Story of Figuring Things Out

nature-of-stem

**What you need:** clipboard · collecting sheet (plain paper for the walk) · pencil · sorting sheet (Investigation Journal page, three columns)

**Words to use**

STEM · Science · Technology · Engineering

**Our question**

What did people use to do these jobs before these things were invented?

**Words to sort**

the things each group found on the walk

**Sort each find into Science, Technology or Engineering; finds that fit more than one column can be written in both, with a reason ready**

Science	Technology	Engineering; finds that fit more than one column can be written in both	with a reason ready

**What I found out**
