

Lesson 1

# The Systems of the Human Body

living-things

**What you need:** organ cut-out cards (lungs, windpipe, heart, blood vessels, stomach, small intestine, liver, brain, nerves, bones, muscles) · A4 team-mat header cards (Breathing, Circulation, Digestion, Movement, Control) · Investigation Journal page (five labelled team boxes with space for a dependency arrow)

**Words to use**

Body system · Organ

**Our question**

How do the body's teams depend on one another?

**Draw** The five body systems and the organs on each, grouped by job

**Write** the organs of each team into its labelled box: Breathing, Circulation, Digestion, Movement, Control.

---

---

**Draw** one arrow between two team boxes to show how they depend on each other.

---

---

**Write** a few words on the arrow to say what is being passed (for example, oxygen).

---
