1. Set out $437 + 295$ on the mat, one digit per box, and add from the units.
2. Set out $235 + 187$ on the mat and carry into the tens and hundreds where needed.
3. Set out $467 + 358$ on the mat and write the full answer under the line.

- 1 A GAA club sold 143 match tickets on Saturday and 126 on Sunday. How many tickets did they sell in all?
- 2 The hurling team scored 437 points across the league and the camogie team scored 295. What is the combined total?
- 3 One stand at the pitch holds 235 supporters and another holds 187. How many supporters can both stands hold together?
- 4 At the county final, 318 fans wore red jerseys and 296 wore blue. How many fans wore a jersey altogether?

Emma works out $156 + 138$ like this:

$$\begin{array}{r} 156 \\ + 138 \\ \hline 284 \end{array}$$

Find Emma's mistake. What's the correct answer?
