

TOTAL FOR TWO SHOP ITEMS

- 1 Put the pencil price **30c** on the coin mat first.
- 2 Add the rubber price **20c** beside it.
- 3 Count all the coins to see the total is **50c**.
- 4 Check that **50c** fits exactly in the **50c** you have.

WARM-UP

Use the coin mat to build each amount and find its total.

1. Build $20c + 10c$ with coins and write the total

€2	€1	50c	20c	10c	5c	2c	1c

2. Make $30c + 20c$ on the mat and check it fits 50c

€2	€1	50c	20c	10c	5c	2c	1c

3. Show $10c + 20c + 10c$ in coins then count the total

€2	€1	50c	20c	10c	5c	2c	1c

PRACTICE

- 1 You pick a pencil at **30c** and a bun at **10c** from the tuck shop. What do they add to? _____

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.
