

How do we make it go?

energy-forces

What you need: chunky wind-up toys · battery torch with sealed screwed-shut battery compartment · plain push toy cars (no pull-back mechanism) · pinwheels · sorting hoops or trays with picture-and-word labels (winding/key, battery, push, wind/blow) · masking tape for a short car lane · plain paper for drawing

Our question

What made each thing go?

What makes each thing go?
