

# How animals grow and change

living-things

**What you need:** life-cycle picture cards (frog: spawn, tadpole, froglet, adult; hen: egg, chick, young hen, adult; sheep: newborn lamb, growing lamb, young sheep, adult) · sorting strip or table space marker (start to finish) · Investigation Journal page

## Words to use

Life cycle · Grow and change · Young and adult

## Our question

How does a baby animal you know change as it grows older?

## Words to sort

frog spawn (egg) · tadpole · froglet (little frog with legs) · adult frog

**Put the frog cards in order from youngest stage to adult. Optional extension sets (printables only, one animal at a time): hen egg, chick, young hen, adult hen; or newborn lamb, growing lamb, young sheep, adult sheep.**

| Group 1 | Group 2 | Group 3 |
|---------|---------|---------|
|         |         |         |
|         |         |         |
|         |         |         |
|         |         |         |
|         |         |         |

**Draw The frog life cycle drawn in order from young to adult**

**Which stage is the youngest?**

**What is one way the animal changed?**
