

Why biodiversity matters: research and food webs

living-things

What you need: biodiversity audit sheets from earlier in this project · research cards (Why biodiversity matters; Pollinators in Ireland; All-Ireland Pollinator Plan; Biology and ecosystems; From facts to action) · Investigation Journal page · plain paper for food-web sketch · pencils and coloured pencils · sticky notes or scrap paper for research notes

Words to use

Biodiversity · Pollinator · Food web · Biology

Our question

Why does biodiversity matter in our school grounds, and what does Irish research on pollinator decline suggest we should do next?

I predict...because...

One key research fact

Link to our audit evidence

One idea that could shape our action

Which fact best explains why biodiversity matters here?

How does pollinator decline link to our grounds and to Biology?

What action idea fits our audit evidence?
