

Minibeasts in our garden

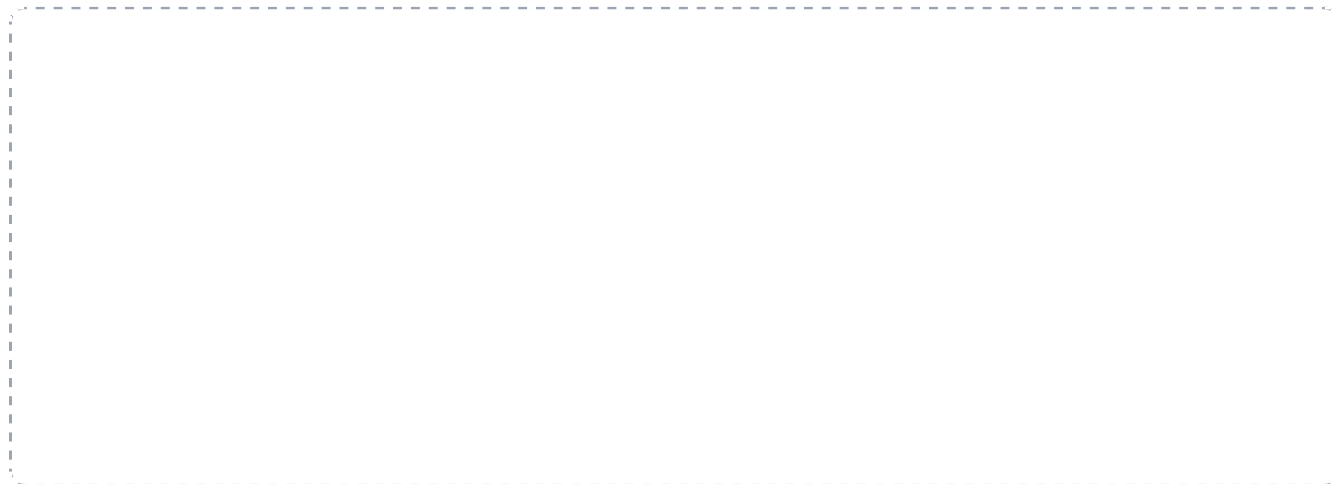

living-things

What you need: chunky plastic magnifiers · clear bug pots with air holes · soft paintbrushes · child garden gloves (optional support) · crayons · nature photo cards of Irish garden minibeasts

Our question

What did we notice about the minibeasts, and how did we keep them safe?

Draw snails, woodlice or worms found in the school garden, or photo cards of the same

What colour is it?

Does it have a shell, legs or a long soft body?

What one thing do you notice most?
