

Which material is waterproof?

materials

What you need: fabric squares (cotton scrap or old t-shirt, about 10 cm) · paper squares (copy paper, about 10 cm) · foil squares (kitchen foil, about 10 cm) · plastic squares (cut from a clear document wallet or clean food bag) · shallow tray · dropper or small spoon · small jug of water · raincoat or waterproof jacket to show · cloths or paper towels for spills

Words to use

Waterproof · Absorb · Material

Our question

Which material squares keep water out, and which let water through?

I predict...because...

What we found out

Which materials kept water out?

Which materials let water through or soaked it up?
