

Left out in the weather

materials

What you need: paper squares · fabric scraps · aluminium foil pieces · dry leaves · chalk sticks · shallow tray or net bag for outdoor samples

Words to use

Weather · Weathering · Prediction

Our question

What might rain, sun and wind do to materials left outside?

I predict...because...

What we found out

Draw and label what you see

Labels I used

Which sample do you think will change first?

What will we look for when we check again?
