

Inputs, processes and outputs in a real system

technology

What you need: system fact cards (supermarket self-checkout, weather app, library self-issue) · scrap paper for rough IPO lists · pencils

Words to use

Input · Process · Output · System

Our question

What are one input, one process and one output for your system card?

Draw and label the order

Labels to use

hold Leap card to the reader · check card and work out the fare · beep, green light and journey recorded

The order I found

What I found out
