

# Start and build a MakeCode Arcade game

technology

## Words to use

Sprite · Algorithm · Block · Bug

## My game plan – fill this in before you build

Decide these before you touch the editor. One line each: the build is the lesson, the plan is the five minutes before it.

## What the player controls, and how it moves

## What makes the score go up

## The blocks I used today

| Block | What it made happen |
|-------|---------------------|
|       |                     |
|       |                     |
|       |                     |
|       |                     |
|       |                     |

## One thing that did not work first time, and what I changed
