

Start and build a MakeCode Arcade game

technology

What you need: tablet or laptop with MakeCode Arcade

Words to use

Sprite · Algorithm · Block · Bug

My game plan – fill this in before you build

Decide these before you touch the editor. One line each: the build is the lesson, the plan is the five minutes before it.

What the player controls, and how it moves

What makes the score go up

The blocks I used today

Block	What it made happen

One thing that did not work first time, and what I changed
