

Inputs, processes and outputs

technology

What you need: device cards (toaster, tablet, automatic door) · scrap paper or mini whiteboards

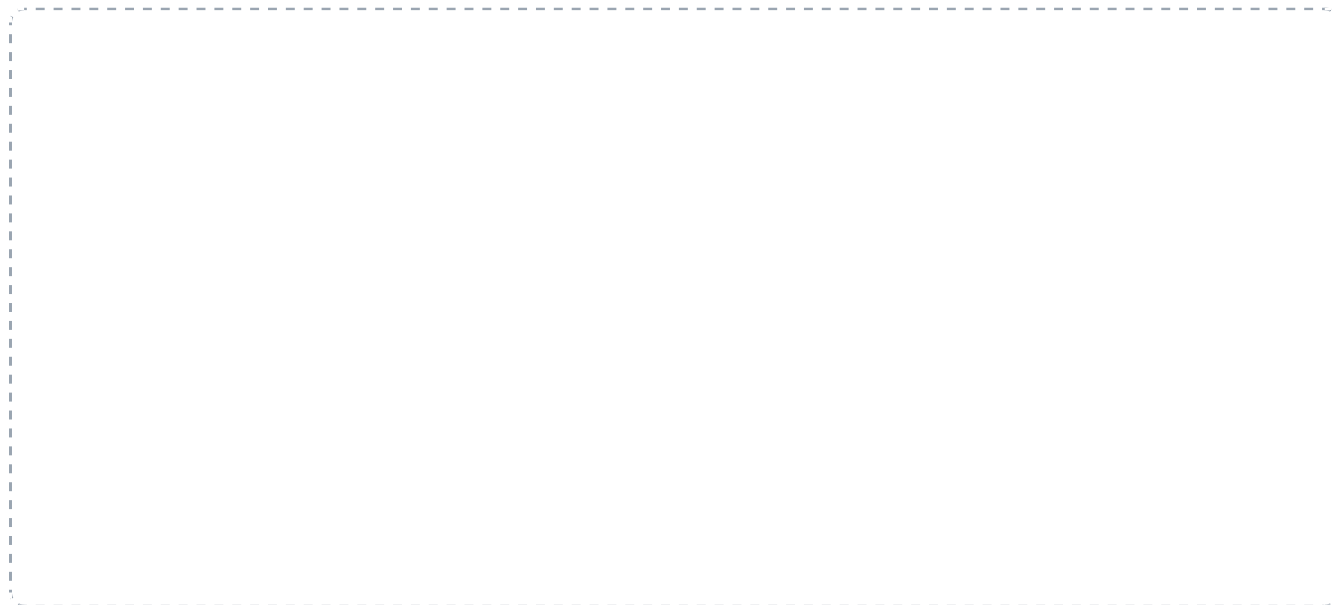

Words to use

Input · Process · Output · Digital system

Our question

What counts as an input, and what counts as an output?

Draw and label the order

Labels to use

sensor spots someone approaching · button is pressed · control unit decides the door should open · motors drive the door · door slides or swings open · beep sounds (sometimes)

The order I found

What I found out
