

Food chains, webs and interdependence

living-things

What you need: food-web picture cards (sun optional on IWB only; print set: grass, oak leaves, clover, rabbit, caterpillar, slug, earthworm, robin, thrush, hedgehog, fox, buzzard) · arrow cards labelled is eaten by · string or wool lengths for marking shared links in a web · envelopes or trays to hold each group's card set

Words to use

Food chain · Producer · Consumer · Food web · Interdependence

Our question

What happens to the rest of the food web when one link is removed?

I predict...because...

Draw and label your food web – show the arrows the way energy flows

Labels to use – pick five or six

grass · oak leaves · clover · rabbit · caterpillar · slug · earthworm · robin · thrush · hedgehog · fox · buzzard

The producer I marked, and two consumers that depend on it

What I found out
