

Plan and take an action

living-things

What you need: clipboard for outdoor plan-checker copy of the board plan · pollinator-plan-friendly or Irish-native wildflower seed packet (or small plant plugs) · hand trowels · watering can with water · clean plastic bottles or a small wooden box frame for a bug hotel · bug hotel fillings (cardboard tubes, dry hollow stems, pine cones, dry leaves, corrugated card) · garden string or twine · wooden stakes or short garden canes · A4 card and permanent marker for a weatherproof class sign · round-tip scissors

Words to use

Biodiversity action · Evidence-based choice · Success sign

The action we chose, and the outdoor spot

Which audit finding does this action answer?

Two success signs we will check later (at least one that next session can see)

What I did in my job

Why this should help living things here

If the plan changed outdoors: what changed, and why
