

The main organs of the human body

living-things

What you need: roll of lining paper or large paper sheets for one life-size body outline · washable markers · organ cut-out cards (brain, heart, lungs, stomach, intestines)

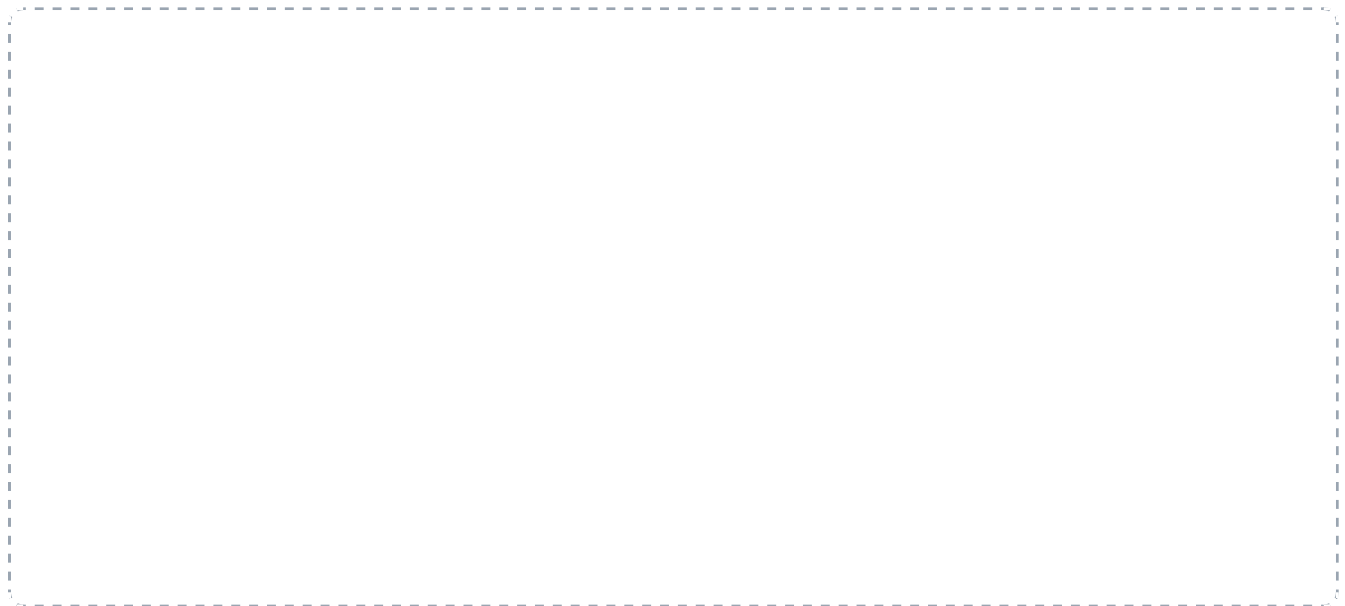

Words to use

Organ · Brain · Heart · Lungs · Stomach · Intestines

Our question

How does knowing where organs sit help people who care for our health, and how do gentle checks like listening and scans help today?
