Our question

Which property made the biggest difference to the job each material suits?

I predict...because...

How does it feel when you hold it?

Does it bend or stay stiff?

Can you see through it?

What happens to a small drop of water on it?

Our property pair: _____ or _____

Tick the side of the pair each material belongs to

Material	One side of our pair	The other side
wood block		
clear plastic		
fabric scrap		
aluminium foil		
glass jar		

One material, a property we noticed, and one job it suits because...
