Our question

Which property made the biggest difference to the job each material suits?

I predict...because...

Words to sort

wood block · clear plastic · fabric scrap · aluminium foil · glass jar

Choose one property pair at a time and place each material in the matching group, then re-sort by a second property pair

Group 1	Group 2	Group 3

How does it feel when you hold it?

Does it bend or stay stiff?

Can you see through it?
