

Inputs, processes and outputs

technology

What you need: device cards (toaster, torch, automatic door, pencil sharpener) · floor labels (Input, Process, Output) · sticky notes or scrap paper for desk IPO planning · real classroom examples to show (torch and pencil sharpener)

Words to use

Input · Process · Output

Our question

If a familiar machine will not work, which IPO part would you check first?

Draw and label the order

Labels to use

press the switch · electricity goes to the bulb inside · beam of light

The order I found
