

Set up our plant investigation

living-things

What you need: healthy potted plant for comparison hook · pale leggy potted plant for comparison hook · clear plastic cups · bean or cress seeds · damp compost or cotton wool · jug of water · plant labels or masking-tape labels · dark box or access to a dark press cupboard with space for every dark pot · shallow tray to hold pots · newspaper or wipeable mat to protect desks

Words to use

Plant needs · Prediction

Our question

What happens to our plants without light, or without water? (use the one question the class agreed)

I predict...because...

My labelled drawing

Labels to use

roots · stem · leaf · flower · petal

Labels I used

What will we look for as the weeks go by?

How will we know if a plant is growing well?
