

What did our plants need?

living-things

What you need: plants in clear cups from earlier in this project (both conditions) · watching logs from earlier in this project · 30 cm clear ruler

Words to use

Evidence · Condition

Our question

What do plants seem to need to grow well, and what is our evidence?

I predict...because...

Draw and label both plants, with their heights and one other difference

How tall did our plants grow? (in cm)

Condition	Height (cm)

Draw a bar chart of our results

Lesson 7

Which bars are tallest or shortest? What do height and what we saw with our eyes tell us about what plants need?

Which condition grew least well? What evidence do we have from colour, leaves and height?

Our conclusion sentence
