

Weathering: what does Irish weather do?

materials

What you need: weathered sample set (paper, fabric scrap, kitchen foil, stick of chalk; optional leaf) left outdoors in advance · matching sheltered sample set (same paper, fabric, foil, chalk; optional leaf kept indoors) · magnifier · sorting tray or shallow box for sample pairs · optional disposable gloves

Words to use

Weathering · Sheltered

Our question

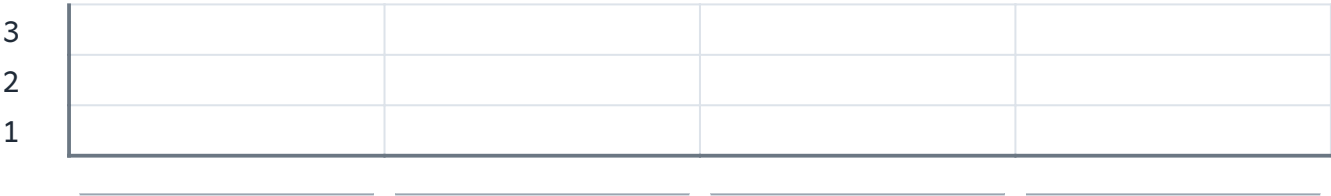

What does Irish weather do to materials left outside?

I predict...because...

How different did each sample look? (in difference score)

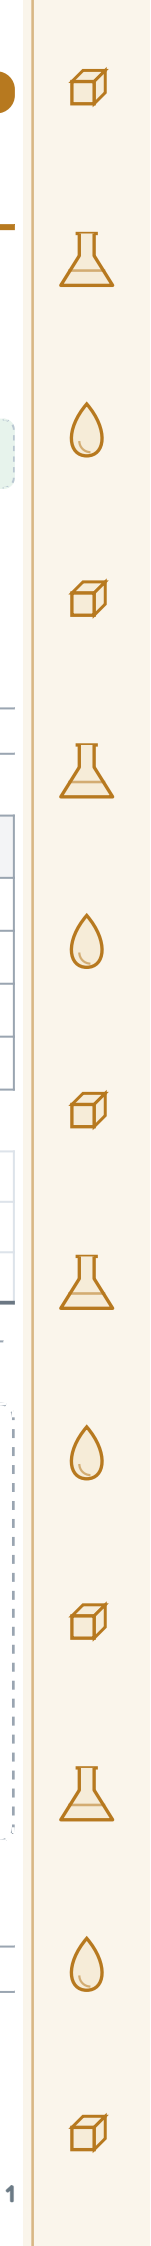

Sample	How different (1 to 3)

Lesson 14

Which materials changed the most in the weather?

Which stayed almost the same?

What do you think rain, sun or wind did?
