

Looking after materials and our planet

materials

Words to use

Recycle · Compost · Reuse

Our question

What one way can our class use less or reuse something this week?

Words to sort

clean paper offcuts · clean cardboard · clean plastic bottle · picture card of apple core or banana peel · dry leaf · fabric scrap · clean jam jar or similar pot

Sort each clean item into recycle, compost or reuse using reuse-before-recycle when both could fit, and say why

recycle	compost	reuse

What I found out
