

Energy in our everyday lives

energy-forces

What you need: energy-job picture cards (set of 12 images with short captions only: lights, radiator, bus, bell, torch, kettle, bicycle, speaker, whiteboard, hairdryer, washing machine, whistle — no energy job printed on the pupil side) · job label cards (Lighting, Heating, Moving, Making sound)

Words to use

Energy · Our own energy

Our question

What energy jobs did we spot, and where does our own energy come from?

Words to sort

classroom lights · radiator · school bus · fire drill bell · torch · kettle · bicycle · speaker or radio · interactive whiteboard · hairdryer · washing machine · whistle

Group each card by the main energy job it does

lighting	heating	moving	making sound

Name a thing that uses energy

What job is the energy doing?

Where does your body energy come from?
