

Build a strong tower

engineering

What you need: newspaper sheets · masking tape roll · paper cups · card offcuts · small soft toy · scrap design paper

Words to use

Free-standing · Wide base

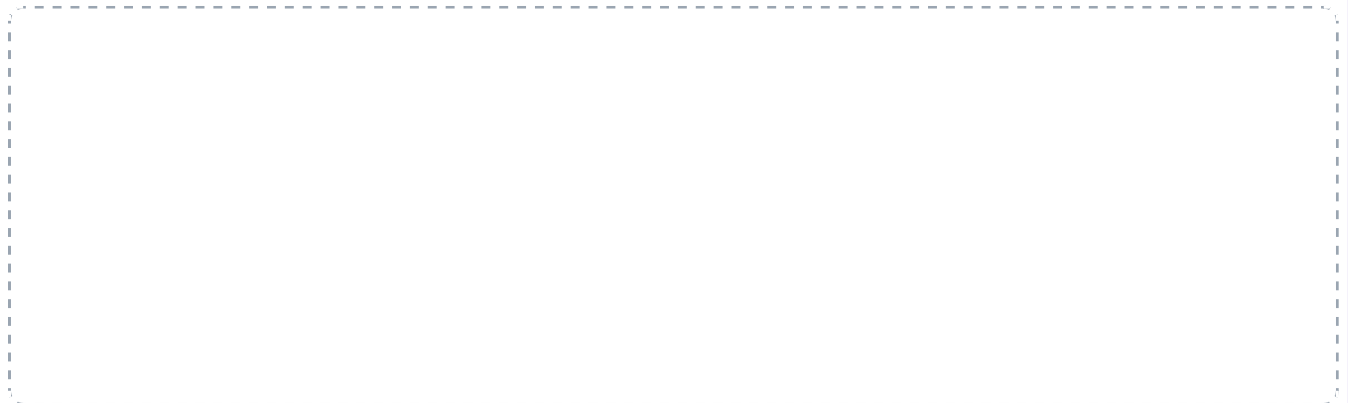

Our question

Will our tower stand on its own and hold the soft toy on top?

I predict...because...

What we found out

Draw our finished tower and the feature that helped it stand

Did the tower hold the teddy?

What one change helped most?
