

COLUMN ADDITION OF $38 + 26$

- 1 Set out 38 and 26 in neat tens-and-units columns.
- 2 Add the units first: $8 + 6 = 14$. Write 4 in the units box and carry 1 ten.
- 3 Place the carried 1 above the tens column.
- 4 Add the tens: $3 + 2 + \text{the carried } 1 = 6$. Write 6 in the tens box.

WARM-UP

Fill the blank column frames for the additions named below.

	4	5
+	1	8

	5	7
+	2	9

1. Set out $45 + 18$ in the first frame, add units then tens and ring the carried ten
2. Set out $57 + 29$ in the second frame, add units then tens and ring the carried ten
3. Check that both frames show the carried 1 sitting above the tens column

PRACTICE

- 1 The art table has 23 paintbrushes and the teacher brings 14 more from the store. How many paintbrushes are there now? _____
- 2 There are 29 pupils already seated in the hall and 46 more walk in from their classroom. How many pupils is that? _____
- 3 Mia counts 36 stickers in her book then the teacher gives her 27 extra stickers. How many stickers does she have? _____
- 4 In the stationery cupboard there are 58 pencils and 35 pens ready for the lesson. How many writing tools altogether? _____

SPOT THE MISTAKE

Conor works out $47 + 28$ like this:

$$\begin{array}{r} 47 \\ + 28 \\ \hline 65 \end{array}$$

Find Conor's mistake. What's the correct answer?

The mistake _____ Correct answer

REFLECT

When a column needed renaming, what clue told you before you started?
