

- 1 Draw **14** dots for the buns on squared paper.
- 2 Share the dots one by one into **3** equal groups.
- 3 Each group gets **4** buns.
- 4 There is **2** left over that will not make another full group.
- 5 So we say 4 each, remainder **2**.

A 6x6 grid of dots on a light blue background. The dots are arranged in a regular pattern, with 6 dots in each row and 6 dots in each column, totaling 36 dots. The dots are small, dark blue circles.

When a fair share leaves some over, what could you do with the leftover?
