Lesson 119

End-of-year review: number, measures and shape

IS 3400 ODD OR EVEN?

1. Look at the units digit of the number in the place-value mat.
2. The units digit is **0**.
3. A number ending in **0** splits into two equal groups, so it is **even**.

Th	H	T	U
3	4	0	0

WARM-UP

Write each total in the odd box or the even box.

	odd	even
sort here		

1. Work out 2000 + 500.
2. Work out 40 + 3.
3. Work out 600 + 70 + 5.

PRACTICE

1. Work out **5000** + **200**. Is the total odd or even?
2. Add **50** + **6**. Is the total odd or even?
3. A length is marked **80 cm** (remember **1 metre** = **100 cm**). Is **80 cm** shorter or longer than a metre?
4. A shape has **4** straight sides. Is it a triangle or a quadrilateral?
5. A length is marked **3 m**, which is **300 cm**. Is it shorter than a metre or longer than a metre?
6. Is **3457** odd or even?
