

FROM 14:35 TO ORDINARY TIME

- 1 Look at the hour part **14**. It is greater than 12, so the time is pm.
- 2 Subtract 12 from **14** to find the ordinary hour: $14 - 12 = 2$.
- 3 Keep the minutes the same. So 14:35 is **2:35 pm**.

WARM-UP

Draw hands on each blank clock face to match the given 24-hour time.

2:30 PM = ?

1. Draw hands for 15:00, 13:00 and 18:30 on the first three clocks
2. Draw hands for 21:15, 23:50 and 00:05 on the last three clocks
3. Beside each clock write the matching 12-hour time with am or pm

PRACTICE

- 1 A bus leaves Galway station at **16:00**. What time is shown on an ordinary clock? _____
- 2 The ferry from Cork harbour departs at **17:00**. Write this as a **12**-hour time. _____
- 3 Irish Rail lists a train to Limerick at **19:30**. What pm time is that? _____
- 4 A concert in Dublin ends at **8:45** pm. How does the **24**-hour clock display this time? _____
- 5 The last bus from County Kerry leaves at **22:40**. Tell the ordinary **12**-hour time.
 22:40 = ? (write with am or pm) _____

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.
