

FAMILY BUS RIDE 8:47 TO 9:25

- 1 Start at **8:47**. Count on to the next hour at **9:00**. That hop is **13** minutes.
- 2 Next hop from **9:00** on to **9:25**. That hop is **25** minutes.
- 3 Add the hops: $13 + 25 = 38$ minutes in all.

WARM-UP

Draw the hour and minute hands on each blank clock face.

is and count minutes between them

1. On the first pair of clocks draw hands to show 6:53 and 7:18
2. On the next pair of clocks draw hands to show 10:20 and 10:50
3. On the last pair of clocks draw hands to show 11:48 and 12:25

PRACTICE

- 1 Mum and Dad leave the house at **3:10** to meet Gran. They reach her flat at **3:55**. How long is their walk?
- 2 Your sister starts her piano practice at **7:15** and finishes at **7:45**. How many minutes does she practise?
- 3 You and your friend leave for the park at **8:50** and arrive at **9:20**. How long does the trip take?
- 4 Uncle catches the bus at **6:42** and reaches Auntie's house at **7:18**. How many minutes is his journey?
- 5 Nan starts baking with you at **9:35** and the cakes are ready at **10:15**. How many minutes do you bake together?

SPOT THE MISTAKE

Cian works out the time from 11:48 to 12:30 like this:

He looks only at the minutes:

$$30 - 48 = -18$$

So 18 minutes.

Cian's answer is wrong. What did he forget? What's the correct answer?
