? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.

- a. The millions digit tells how many groups of one million are in the number.
- b. A zero in the thousands column means there are no thousands in that number.
- c. You can ignore zeros when reading a number to millions.
- d. Every number to millions needs exactly seven digits.

IRISH FACT

How many people live in Ireland?

The 2022 census counted **5,149,139** people living in the Republic of Ireland: just over **five million**.
