

WORKING OUT HOW LONG A BUS TAKES

- 1 Read down the 08:00 column to see leave Dublin 08:00 and arrive Cork 10:35.
- 2 Count the hours from 08:00 to 10:00 then the minutes to 10:35.
- 3 The journey lasts 2 hours and 35 minutes.

WARM-UP

On the printed Dublin-Cork timetable grid and zone clocks, complete the three tasks.

Leaves	09:15	11:40	14:05	16:30
Arrives				

1. Circle the 11:20 departure and the matching 13:55 Cork arrival in the same column
2. Work out how long that journey takes and write it in the box under the column
3. Fill the New York clock to show 10:00 and the Sydney clock to show 02:00 next day when Dublin is 15:00

PRACTICE

- 1 The morning bus from Dublin to Portlaoise leaves at **09:00** and reaches Portlaoise at **10:15**.
Bus leaves Dublin at 09:00 and arrives Portlaoise at 10:15. How long does it take?
- 2 The train from Cork to Dublin leaves at **12:10** and gets to Dublin at **14:50**.
Train leaves Cork at 12:10 and arrives Dublin at 14:50. How long is the trip?
- 3 It is **17:00** in Dublin. New York is **5 hours** behind.
When it is 17:00 in Dublin what time is it in New York?
- 4 The early bus leaves Dublin at **07:45** and arrives in Cork at **10:20**.
Bus leaves Dublin 07:45 arrives Cork 10:20. How long does the journey last?
- 5 It is **14:00** in Dublin. Sydney is **11 hours** ahead.
When it is 14:00 in Dublin what time is it in Sydney?
- 6 The bus leaves Dublin at **08:40** and arrives Cork at **11:10**.
Bus leaves Dublin 08:40 arrives Cork 11:10. How long does it take?

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.

- a. A bus that leaves at 13:50 and arrives at 16:05 takes 2 hours 15 minutes. ☐
- b. A bus timetable uses 24-hour times. ☐
- c. Travelling west makes the clock go forward. ☐
- d. You can find journey length by counting from departure time to arrival time. ☐
