

FULL EGG BOXES MAKE A DECADE

- 1 Each egg box holds **10** eggs and is full, so there are no loose eggs.
- 2 Here are **3** full boxes: that is three tens.
- 3 Write **3** in the tens place and **0** in the units place to show nothing left over.
- 4 The decade number of eggs is **30**.

WARM-UP

Use the place-value mat. Write one digit in each cell.

H	T	U

1. Write the decade number 30 in the first row of the mat.
2. Write the decade number 50 in the second row of the mat.
3. Write the decade number 80 in the third row of the mat.

PRACTICE

- 1 At the farm shop each egg box holds **10** eggs. Mum buys **2** full boxes. How many eggs is that as a decade number? _____
- 2 The greengrocer sells apples in packs of **10**. A shopper takes **4** full packs. What decade number of apples is that? _____
- 3 The bakery stacks muffins on trays of **10**. There are **5** full trays on the counter. How many muffins is that? _____
- 4 In the market each bag holds **10** carrots. A cook buys **8** full bags for soup. What decade number of carrots does she have? _____
- 5 The corner shop shelves tea in boxes of **10** bags. There are **9** full boxes left. How many tea bags is that as a decade number? _____
- 6 A fruit stall unloads **7** full crates, each holding **10** oranges. What decade number of oranges is on the stall? _____
