

NEXT FIVE AFTER 15

- 1 Start on the hand-count number **15**.
- 2 Add one more hand of five fingers.
- 3 15 and 5 make **20**.
- 4 The next five after 15 is 20.

WARM-UP

Shade the count-in-fives numbers on the hundred square.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

1. Shade 5, 10, 15, 20, 25 and 30 to show the first hands of fingers.
2. Shade the next five after 30 and the next two fives after 40.
3. Shade 65, 70 and 75 to keep the hand-count path going.

PRACTICE

- 1 Builders stamp wet handprints along a new wall. They have counted **55** fingers so far. What is the next hand-count number? _____
- 2 A craft club paints handprints on a wooden frame. After **30** fingers, what number comes next when they count a hand at a time? _____
- 3 A building crew stamps handprints past **40** fingers. Say the next two numbers they land on when counting a hand at a time. _____

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.

- a. Numbers landed on when counting in 5s end in 0 or end in 5.
- b. Counting in 5s from 5 reaches the number 17.
- c. 25 is a number you say when counting in 5s.
- d. The next five after 70 is 80.
