

- 1 Compare three events: brushing teeth, a PE lesson, and sleeping all night.
- 2 Brushing teeth is quick and takes only a short time.
- 3 A PE lesson lasts much longer than brushing teeth.
- 4 Sleeping all night lasts longer than a PE lesson.
- 5 Order from shortest to longest: brushing teeth, PE lesson, sleeping all night.

1 In the classroom Maeve blinks once. Later she sleeps all night. Which takes longer?

2 The teacher claps once to get attention. Is that clap a moment or a long time?

3 Before PE, Tom ties one shoelace. Then the class has a whole PE lesson. Which takes longer?

4 At school Aoife claps once, brushes her teeth, then sleeps all night. Put the three in order from shortest to longest.

5 Dan blinks, has a PE lesson, then sleeps all night. Write the three events from shortest to longest.

6 In one school day Ciara ties one shoelace, eats dinner, and has a whole PE lesson. Put them in order from shortest to longest.

Always, sometimes or never true? Write A, S or N.

- a. A clap takes less time than sleeping all night. ☐
- b. A blink takes longer than a whole PE lesson. ☐
- c. Brushing teeth takes less time than sleeping all night. ☐
- d. Two quick classroom actions take about the same time. ☐
