

MATCH THE 50C COIN

- 1 Look at one gold 50c coin on the tray.
- 2 Place five gold 10c coins beside it.
- 3 Count: $10 + 10 + 10 + 10 + 10 = 50$.
- 4 So 50c matches five 10c coins.

WARM-UP

On the coin mat show each amount with the coins named.

€1	50c	20c	10c	5c	2c	1c

1. Show 10c using only 5c coins.
2. Show 10c using only 2c coins.
3. Show 30c using only 10c coins.

PRACTICE

- 1 In the class shop one small sticker costs 10c. _____
How many 1c coins match that 10c coin? _____
- 2 Sam puts two 10c coins into the classroom pencil pot. What total do they make? _____
- 3 Mia needs 50c to buy a classroom badge. She _____
has two 20c coins. Which coin does she need
to make exactly 50c? _____

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.

- a. One 10c coin matches two 5c coins. ☐
- b. A 20c coin is worth more than a 50c coin. ☐
- c. A gold coin is worth more than a copper coin. ☐
- d. A handful of 10c coins makes 50c. ☐
