

PAY EXACTLY 35C FOR A LITTLE TOY

- 1 Say the price aloud: **35c**.
- 2 Place a **20c** coin on the tray: that makes 20c.
- 3 Add a **10c** coin: now the total is 30c.
- 4 Add a **5c** coin: the coins now total exactly **35c**.
- 5 Check: nothing left over and nothing missing.

WARM-UP

Use the coin mat to build each exact total.

1. Build coins that make exactly 7c
2. Build coins that make exactly 12c
3. Build coins that make exactly 30c

PRACTICE

- 1 In the class games shop a rubber for hopscotch costs **5c**. Which coins pay exactly **5c**?
- 2 A pencil for the score pad costs **10c**. Show coins that add to exactly **10c**.
- 3 A toy car for free play costs **45c**. Build coins that total exactly **45c**.

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.

- a. Two 2c coins make exactly 5c. ☐
- b. A 20c coin and a 10c coin make exactly 35c. ☐
- c. A 20c coin and a 2c coin make exactly 22c. ☐
- d. You can make exactly 20c with one 20c coin or with two 10c coins. ☐
