

TALLY VOTES FOR THE SHOP TRIP

- 1 Write the three headings Walk, Car and Bus in a row.
- 2 Count nine hands for Walk and mark strokes: four upright then a cross to make one gate, plus 4 more strokes.
- 3 Seven hands for Car make one gate and 2 extra strokes.
- 4 Read each finished row by counting every gate as five plus the leftover strokes.

WARM-UP

Use the tally chart rows to show the class travel votes.

Category	Tally	Count
Walk		
Car		
Bus		

1. Under Walk draw the tally for 5 votes as one gate.
2. Under Car draw the tally for 11 votes as two gates and one stroke.
3. Under Bus draw the tally for 13 votes as two gates and three strokes.

PRACTICE

- 1 The children who walked to the food shop made a tally of one gate and three strokes under Walk. How many votes is that? _____
- 2 The class voted how they reach the supermarket. Car got one gate and one stroke. What total does that tally show? _____
- 3 Under Bus the tally for the bakery trip shows four plain strokes. What number is that? _____
- 4 Some shoppers came by bus. Their tally is two gates and four strokes. How many votes does the Bus row hold? _____

? ALWAYS, SOMETIMES, NEVER

Always, sometimes or never true? Write A, S or N.

- a. A gate of five and two more strokes shows 7 votes. ☐
- b. Four upright strokes and one stroke across them make one gate. ☐
- c. A row of three plain strokes shows 8. ☐
- d. The heading with the most gates has the most votes. ☐
