

Life Cycles and the Irish Year

living-things

Words to use

life cycle · stage · season · needs · warmth · daylight · shelter · food

Our question

Why does each life-cycle stage happen in the season it does? Argue from what the stage **NEEDS**.

Each stage, and why it happens then

Stage	What it needs	The season	Why then

Which stage could sit in two seasons on your strip? Write the stage, the two seasons, and why it could be in either.

A hedgehog hibernates through the cold. From its needs alone, when are its young born, and why?

What I found out about why each stage happens when it does
