Lesson 13

Repeat, evaluate and share

Materials

Today's page

> This is your Results and Conclusion page. Your plan stays on the page from last time, with the other group's readings on it.

Words to use

Repeat · Evidence · Evaluate

Our question

> When another group runs our test from our plan, does the same material still win?

Our readings

Material or cup	Trial 1 (us, last time)	Trial 2 (the other group)	Trial 3 (us, today)	Middle reading

Our winner, and its middle reading

Did our prediction hold? What do the readings show?

Did the other group get the same winner? If not, what could have made the difference?

One way to make our plan clearer. Any ? they left us is a good place to start.
