Lesson 6

Why biodiversity matters: research and food webs

Living Things

Words to use

Biodiversity · Pollinator · Food web · Biology

One research fact from Card B or C, in my own words

How it links to our audit

The pollinator test: how many living things on my food web lost something when the pollinators went?

The living thing that surprised me most, and the research fact that explains it

Our class action, and the evidence that chose it

My food-web sketch, with the pollinators crossed out, goes with this page.
