Lesson 16

Pushes and pulls all around us

Energy & Forces

Words to use

Force · Push · Pull

Our question

Which forces did we find, and where do we still use the same pushes and pulls?

The forces I found

Where was it?	Push or pull?	What happened? (started, stopped or changed shape)

Draw the force that surprised you most. Add an arrow to show which way the force went.

Desk football: what did your flick do to the ball, and what did your save do?

Force charades: one job people have always done with a push or a pull
