Lesson 13

# Mixing materials: what happens?

Materials

## Words to use

Mixture · Dissolve · Predict

## Our question

> What happens when we stir sugar, salt, sand and flour into water?

**Mark your prediction first. Write or draw what you see beside it.**

| Material | I predict: will it seem to disappear? | What I see in the cup | Class result: yes or no |
|---|---|---|---|
| Sugar | | | |
| Salt | | | |
| Sand | | | |
| Flour | | | |

**Draw one cup. Label what you can see.**

**Which materials seemed to disappear?**

**What about flour, when the water went cloudy?**
