

Square and rectangle: the four-corner cousins

MODULE 6 · SHAPE AND SPACE — 2D, 3D, POSITION AND TURNS

SHAPE & SPACE

★ STRETCH PROBLEMS

- 1 All 4 sides of a shape are the same length. Is it a square or a rectangle? _____
- 2 A shape has 2 long sides and 2 short sides. Is it a square or a rectangle? _____
- 3 A copybook cover has 2 long sides and 2 short sides. What shape is it? _____
- 4 How many corners do a square and a rectangle each have? _____

● INVESTIGATE

Square or rectangle?

Draw one square and one rectangle. Colour the long sides of the rectangle. Write square or rectangle under each one.
