

Making new shapes from old: shapes hiding inside shapes

MODULE 6 · SHAPE AND SPACE — 2D, 3D, POSITION AND TURNS

SHAPE & SPACE

★ STRETCH PROBLEMS

- 1 Two squares join side by side. What bigger shape do they make? _____
- 2 Two triangles join along one full side. What bigger shape do they make? _____
- 3 Six triangles meet at one middle point. What bigger shape do they make? _____
- 4 A paper square is cut once from corner to corner. What two shapes come out? _____

● INVESTIGATE

Build a bigger shape

Draw two small shapes that fit together with no gaps to make a bigger shape.
Draw the join line and write the name of the bigger shape.
