

Fair shares for two: one half

MODULE 10 · FRACTIONS — HALVES NUMBER

- 1 Fionn and her friend are in the school canteen. They share 20 cubes fairly between the two children. How many does each child get?

- 2 When planting seeds in the school polytunnel in spring, the teacher asks two children to share 10 crayons fairly. How many does each child get?

- 3 Two children in the school canteen want to share 20 apples fairly. How many does each child get?

- 4 Two cousins meet at granny's house for Sunday dinner. They have 8 marbles to share fairly between two children. How many does each child get?

Draw and explore

Draw a picture that shows one of today's problems. Label your drawing with the numbers you used.
