

Minibeasts in our garden

Junior Infants

Print and cut along the dashed lines, then hand one card to each group. These carry the **text a group reads** — a job to do, a brief to research, or notes to identify by. They are not sorted or sequenced, so there is nothing to match on screen.

Snail

Soft body and a hard spiral shell. Often under damp leaves or logs. Moves very slowly. 🐌 🐌

Woodlouse

Grey-brown body with many little legs. Lives under stones and logs. May curl up when touched gently. 🐌 🐌

Worm

Long, soft, pinkish-brown body with no legs. Lives in damp soil under leaves. 🐌 🐌
