

My evidence card

Lesson 2: What you already know about digital media

This card is yours. Nobody else needs to read it.

Fill in one line for each round. **Every line must point to something you did today:** a colour, and a few words about what you got or missed in that round.

● **Green** if you did it ● **Amber** if you got part of it ● **Red** if you did not get there

Area	Colour	Evidence: what you got or missed in that round
Safe use Round 1		
Searching Round 2		
Spotting dodgy content Round 3		
Sharing Round 4		
Creating Round 5		

Example line Searching, amber: found it, but my search was eleven words long.

Two things I can already do

Take them from your greens. Write one short sentence for each.

- ---
- ---

Two things I want to get better at

Take them from your reds and weak ambers. Make each goal about one clear thing you could check. Too vague: Be better online. Clear enough to check: Tell a sponsored result from an ordinary one without being told.

- ---
- ---

Keep this card in the place where your class keeps its work.
